

For more information, please refer to product label & SDS

AUTO DISH

AUTO DISH is a non-caustic, non-chlorinated, automatic liquid dishwashing detergent.

Product Information

AUTO DISH is specially formulated to provide optimum cleaning and scale control in all types of hard and soft water conditions. AUTO DISH is caustic and chlorine free to ensure passive wash cycles. Due to its low toxicity, AUTO DISH is easily stored and handled, unlike harsher solutions.

Directions For Use

AUTO DISH should only be used with the ALL-PRO dispensing unit provided. The unit will be calibrated by an ALL-PRO sales specialist to deliver the correct dosage as per the requirements. Various settings will provide effective results relative to the degree of cleaning needed. Set the machine to dose as a starting point to deliver 18-25ppm.
